## MESSAGE FROM A TEACHER

### *Nirmana Hulangamuwa.*

Welcome back to school! As the new academic year begins, we are excited to extend our warmest greetings to students. After a break filled with memories and adventures, it's time to get back into the routine of learning, growth, and achievement. To mark this special occasion, we have put together heartfelt welcome back to school to inspire, motivate, and set the tone for a successful academic year ahead.

Starting a new school year can bring a mix of emotions - from excitement to nervousness - and we understand the importance of creating a positive and supportive environment. We believe that a supportive and inclusive school community plays a vital role in the academic and personal development of our students, and we are committed to providing an enriching educational experience. We look forward to a year filled with growth, learning, and unforgettable moments as we embark on this journey together.

As we come together to kick off another year of learning, we want to express our gratitude for your dedication and hard work. To our students, we commend your thirst for knowledge and determination to excel. We are excited to embark on this new chapter together, filled with opportunities to learn, discover, and create lasting memories. Welcome back to school, and here's to a fantastic year ahead!

## TECHNOLOGY

Today technology has made our lives easy and has given us so many facilities that we could imagined before. Technology has not only given new speed for Development to human Life but has also brought it to new heights of Success. It has played an important role in the development of health, education, entertainment, business, tourism, agriculture etc. Technology is the scientific knowledge used in the production of things with the advancement of technology we all are inclined towards new tools and techniques. The first visible use of technology on a mass level was started in the 18th Century as the Industrial Revolution. When the human hand was replaced by machine tools.

### Benefits or Advantages of Technology

Technology has mobilized our economy; people can easily hang out with their friends, and relatives, and close once at their will. It has become a 360-degree system of this planet. Various innovations and developments took place in the field of technology which has made a significant impact on our lives. In different ways, with the invention of technology, we become more powerful. Technology has given us a medium to Communicate. Communication devices like PCs, Smartphones, tablets, and laptops, proved to be the best friends of today's generation. Blogging Chatting and self-publishing over the internet are common nowadays. Social network not only keeps people connected virtually but also offers the best opportunities for earning.

Grade 5 –  
Minuth Imalsha

## **My favourite book**

I have read many books. My favourite book is Little Miss Moos. It is a storybook. That is a pretty story and there are lots of characters in that book. I like the little girl in that story very much. The author of the book was Gillian Lobel Danie Howarth. I have read this book several times but again and again, I like to read this book.

Grade 05-  
Anya Risali

## **Dinosaurs**

Dinosaurs lived a million years ago. They were very big and they were a group of reptiles. There were many species such as T-REX, Ankylosaurs, Brachiosaurs, Dilophosaurs, Nodosaur, Pterodactyloidea, and more. The biggest dinosaur is Giganotosaurs. If they are here now, we can't live. There are 3 types of Dinosaurs such as carnivores, herbivores, and omnivores. They ate meat. They were not here because they wanted more space and scientists say Dinosaurs had extinct due to asteroids. We know dinosaurs are there because of their fossils. Now there are even films. I love dinosaurs.

Grade 6-  
Desandu Dulmeth

## **Importance of business**

Business plays a crucial role in society by providing goods and services that people need and want. Business is the economic activity which involves exchange of goods and services for profit or motive. It is an economic activity which manufactures or provides different goods and services in order to fulfill human needs. Importance of business communication also creates jobs and contributes to economic growth and development. Importance of business such as,

- Revenue generation
- Economic growth
- Improve standard of living
- Bulk production
- Innovation
- Generate employment
- Market expansion
